PROFESSIONAL SUMMARY

Bioinformatics undergraduate with hands-on experience in Python, Machine Learning, Data Analysis, and Computational Biology. Currently serving as a Machine Learning Intern at FlyRank AI, applying AI techniques to search ranking and data analysis projects. Experienced in scientific research, academic writing, editorial management, and biological data analysis. Passionate about Artificial Intelligence, Bioinformatics, and Data Science with strong analytical and problem-solving skills.

TECHNICAL SKILLS

Programming: Python, Java, C, C++

Machine Learning: Scikit-learn, Data Preprocessing, Feature Engineering, Model Evaluation

Data Analysis: Pandas, NumPy, Data Cleaning, Data Visualization

Bioinformatics: Sequence Analysis, Molecular Data Analysis, Protein Structure Analysis, Molecular Docking, Genomic & Proteomic Data Analysis

Research: Scientific Literature Review, Research Articles, Data Interpretation, Computational Biology

Tools: Git, GitHub, Google Colab, VS Code, PowerPoint, Canva

Professional: Analytical Thinking, Critical Thinking, Team Collaboration, Time Management, Communication, Problem Solving

PROFESSIONAL EXPERIENCE

Machine Learning Intern | FlyRank AI Jun 2026 – Present

Develop machine learning solutions using Python for AI-focused projects.

Perform exploratory data analysis, preprocessing, and feature engineering.

Evaluate ML models and collaborate using Git/GitHub.

Editor-in-Chief | International Journal of Bioinformatics and Artificial Intelligence Jun 2026 – Present

Coordinate peer review and publication workflows.

Maintain publication quality and communicate with authors and reviewers.

Public Dealing Officer | International Research Institute Pakistan (IRIP) Mar 2025 – Present

Managed stakeholder communication and administrative coordination.

Strengthened organizational operations and documentation.

PROJECTS

Google Search Ranking ML Capstone

Built ML workflows for ranking analysis using Python, Pandas, Scikit-learn, feature engineering and model evaluation.

Hand Gesture Recognition

Developed a real-time gesture recognition system using Python, OpenCV and MediaPipe.

DNA Mutation Detector

Created a Java application to compare DNA sequences and detect mutations (GitHub).

Nucleotide Counter & DNA Sequence Analyzer

Developed a Java program to analyze nucleotide frequencies and percentages in DNA sequences.

EDUCATION

BS in Bioinformatics International Islamic University Islamabad Expected Graduation: July 2027 Relevant Coursework: Bioinformatics, Molecular Biology, Genetics, Computational Biology, Biological Data Analysis

RESEARCH INTERESTS

Artificial Intelligence • Machine Learning • Bioinformatics • Computational Biology • Molecular Data Analysis • Protein Structure Analysis • Drug Discovery • Data Science

CERTIFICATIONS & LEADERSHIP

Machine Learning Intern – FlyRank AI (In Progress)

Graphic Designing & Digital Marketing – Devicon Software House

Editor-in-Chief – International Journal of Bioinformatics and Artificial Intelligence

Media Co-Secretary – Interactive Bioinformatics Network (IBN)
